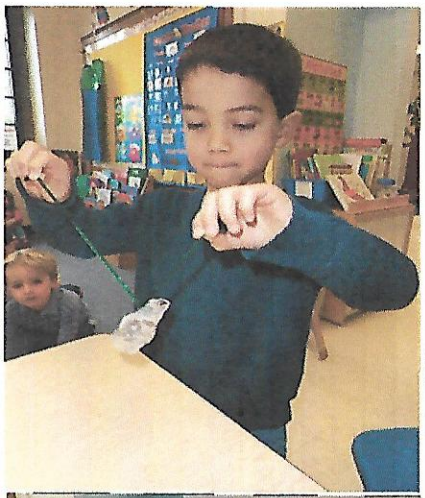
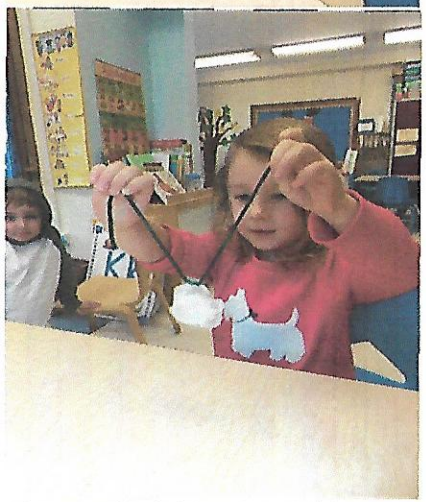
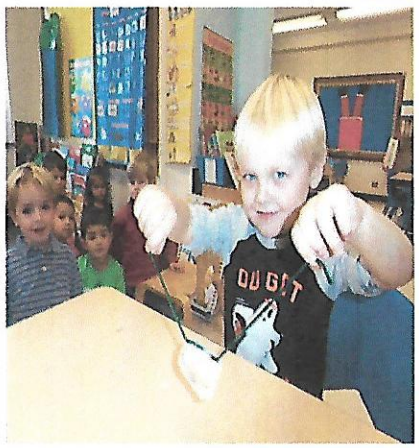
Mrs. Konskier's Enrichment News 1/3/19





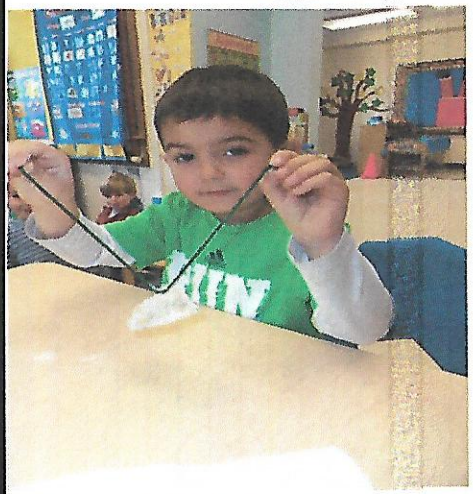


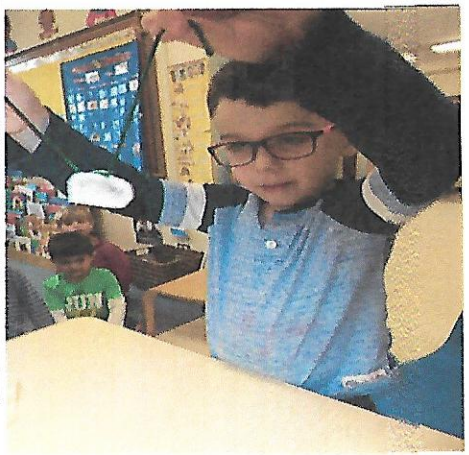
Look at what we are learning!

Happy New Year. I hope everyone had a wonderful holiday and are excited to be back.

One of our monthly highlights last month was having the children pick up an ice cube with a string by lowering the temperature of the ice with salt. Check out their faces.

We also had a lot of fun doing holiday themed activities and making adorable ornaments. Thank you to Brooks' mom (Mrs. McArdle) for coming in and doing a project with our class and Ryan's mom (Mrs. Weigel) for sending in two holiday craft kits to do with the class.

This coming month we have some great science and math activities planned. Please check out our plans on the reverse side.




*****PLEASE send in (2) 1 liter bottles (seltzer) if you have not already done so for an upcoming project.
